

VICTORIA'S DIFFERENCE

Victoria's jigsaw logo is one of the ways we express what makes our state different – our compact diversity. While others offer iconic landmarks or far horizons, we promise a dense landscape of cultural and natural diversity, rich with intimate experiences. 'Compact diversity' is short hand for Victoria's offer. Sharing this identity provides a simple way for visitors to understand us, and invites them to explore the diversity of our regions.

GIPPSLAND'S IMAGE

There's an aura of endlessness, of time stopped still.
You're face-to-face with nature. It's breathtaking,
awe-inspiring. Swallowed by its beauty, you're humbled.
Gippsland. It's...

VAST | NATURAL | TRANQUIL | PRISTINE | DIVERSE

Beaches unfurl into white ribbons of sand and punctuate the edge
of an ornate tapestry of diverse natural wonders. Farm-fresh produce, cool-climate cellars
and laid-back country pubs are richly threaded throughout the landscape.

GIPPSLAND'S DIFFERENCE

Just as 'compact diversity' stands as shorthand for Victoria's offer, 'unspoilt landscapes' aims to capture our unique difference – what we offer that no other region does. And all of our marketing communications express this distinct offer and ambience:

Vast, Natural Tranquil, Pristine, Diverse.

GIPPSLAND'S TRAITS – EXPRESSING OUR DIFFERENCE

Our personality forms part of any creative brief and we use these words to direct the tone of our marketing. We express the moods and feelings described by our key words in all marketing material, while remaining true to Victoria's image. We also use these words throughout written descriptions of our region to further reinforce our personality.

VAST

We provide 'open space' in our visual language and use descriptive language to reflect the scale of our region.

NATURAL

Our natural environment is integral to our offer, so we capture natural colours and light in our imagery.

TRANQUIL

We embody a sense of calm in our image, and express this through all language and imagery.

PRISTINE

We appeal to freedom seekers and nature lovers, so explicitly show off our region's natural icons.

DIVERSE

We use colourful language and imagery to express the natural diversity of our region.

GIPPSLAND'S PHOTOGRAPHY

We use short photo essays to tell the stories of our region and to convey its moods and personality. We match images through subject matter, colour and tone – selecting either a warm or cool hue, depending on the mood we're reflecting.

LANDSCAPE

Capture our greatest natural assets in one sweeping shot to create backdrop and context for our region's experiences.

CLOSE UP

Use intricate details and incidental things about our region to help create strong memories and emotive associations.

EVERYDAY

Focus on activities and lifestyle when capturing people, to create interest and desire.

OUR STYLE

Our photos are clean and crisp, with a sophisticated feel. The colours are naturally vibrant and complement our colour palettes. We avoid over-styling images with effects, filters or over-bleaching or saturating colours.

COMPOSING PHOTOS

We prefer dynamic images that genuinely capture the moods and attributes of our region. We shoot on clear days to show off our natural assets at their best – looking for clear skies, calm waters, clean beaches. We are careful that shots don't look too staged or set up.

LIGHTING

Wherever possible, photos are naturally lit. We shoot landscapes in the gentle light of morning or late afternoon, avoiding the harsh light of the middle of the day.

WIDE SHOTS

When shooting large scale hero imagery we include areas of clear space (eg blue sky) so the area can be used for display text in design and layout. If capturing people they should not dominate the composition, our ideal ratio of talent to destination context is 20:80.

PEOPLE SHOTS

We choose people that reflect our brand and personality, and prefer to use professional models to ensure we get the shots we need. In some instances we use creative methods such as time lapse, silhouettes or avoiding faces to illustrate an experience without the cost of professional models.
